

## School Community Council Minutes Canyon View Elementary November 14, 2017

Welcome & Introductions-

Approval of Minutes/Follow up- Motion: Lori

Second: Rayna

### Business:

- Digital Citizenship Presentation by Jennifer Davis, Internet Safety Coordinator
  - There are many steps to get to the Digital Citizenship
  - Inform students, inform parents and inform the community about the bill that talks about digital safety
  - It talks about what is blocked at school and how we can promote safety on the internet
  - We are going to put some information on the PTA website
  - District filtering: teachers can use accounts and access youtube etc. They are expected to use SafeShare which allows teachers to watch a video without ads and pop ups.
  - MDM is a system that allows the field tech to put apps on the iPad so that the students don't get into anything that they shouldn't
  - Chromebooks are also filtered to block certain websites and they log in with their school username
  - When schools get a new iPad, apps are put on for the students by the district and students can't access the app store.
  - When problems arise are they accidental? Teachers can access history to monitor.
  - We have a Digital Citizenship- Jennifer Davis is our representative at Canyon View
  - We have a week in February Internet Safety Week
  - Cyberbullying

- It might be something that we will have to educate the parents and educate the students
- One idea could be to have the safety patroller to flip a sign after the second bell has rung.
- Motion to keep the doors locked: Jennifer Welding
- Second: Lori Carter
- There might have to be a review of bus 1407: it is very noisy and hanging off the windows and standing up. In the spirit of safety let's talk about this bus. Kierstin will look into this.

### Action Items:

- Review of Emergency Preparedness Event
  - Kierstin is grateful for everyone that volunteered
  - We wish we had more turn out but it was a still a great night
  - One reason for that could have been that we need to make sure that students are more aware instead of just the parents.
  - Next year we can do more kid-friendly activities such as a fog machine obstacle course to help students go through "smoke" safely.
  - Should we do this next year? Should we make it an annual thing?
  - Maybe next year we can partner with other elementary schools in the area to make it a better turn out
  - We can put an ad in the local newspaper
  - We can involve the kids next year
  - We should do it again next year
  - Maybe make it in the spring to have more people come
  - What about the student Ziploc bags? The PTA will take care of that. Consider having student bring it in

- Do teachers teach anything about social media? Answer: Those apps/sites are blocked here at school so students should not be able to access here this. Also in the meeting in February we will focus on that.

- Update on Safety Plan at Canyon View
  - Exterior Security Cameras Requested
    - Kiersin gave us an update. There are no exterior safety cameras but she has requested them from the district. We are requesting 6 new cameras. Next a contractor will come to help decide where the cameras should be placed. We want the playground, parking lot and the front of the building covered.
    - We do have cameras inside but not everywhere, just in the interior near main entryways.
    - We are just waiting to hear the response from the district level. We are hoping it is going to happen this year but it could happen next year.
    - Thanks Kierstin for doing that ☺
  - Discussion on student entry procedure in the morning
    - We have four entry doors that the students use in the back of the building. There is a 15 minute window when the doors are not locked. This is a security breach since that means that anyone can come in during that time.
    - We need some input about this.
    - Is there an option to just make the window 5 minutes instead?
    - It is still a security breach because the doors remained unlocked.
    - One idea is just to allow students enter through the front after the first bell and then after the tardy bell rings, the students will have to get a pass in the office
    - Maybe some volunteers would be ok to check the back areas?
    - It sounds best to just keep the door locked

January for this year. Next year we will have information at Back to School Night for parents to bring their emergency bag.

- Consider bringing in the author for "Store This Not That" she could be a guest speaker for next year's safety night.
- 

### Assignments:

- Kierstin will review Bus 1407 Safety Concerns

**Next Meeting: January 16<sup>th</sup> @ 4:30 Pm**
