### APPROVAL OF MINUTES/FOLLOWUP:

Motion by Jeremy Johnson and 2<sup>nd</sup> by Crystal Humphreys  
Motion to be approved – APPROVED UNANIMOUSLY

### BUSINESS:

Changes to School Year Format- Heather Logan informed us that the school board is considering re-instating the early release on Fridays schedule that we had in the previous school years. It has not been decided what our school will decide to do next year yet. Heather does favor early release Fridays for teacher prep time.

Absenteeism- We discussed reviewing what the absenteeism looks like this year without early release Fridays every week in comparison to last year when we did have early release every week. We discussed using this data to help make the decision about what school schedule we should adopt next year.

Proposed CAMP Schedule- Heather Logan informed us of the new CAMP rotation that might be used next year that would free up teachers for meetings during the day. Aides would be used to run the CAMP program instead of the teachers running it.

Discussion of After School Programs- Discussed whether attendance at school would be better if there was an after school care program. This might enable early release Fridays to be less of a stress to working parents and might cut down on absenteeism.

Discussion of when our plan for the Land Trust money is due for the year.
